

AcuFresh Digester

Product Information Sheet

AcuFresh Digester is a bacteria based general purpose cleaner that has a pleasant fresh clean smell. This product is ideal for cleaning the home, bathrooms, toilets, urinals, bloods etc.

AcuFresh Digester is a leader in its class when it comes to cleaning & hygiene. The intelligent bacteria contained in this product, eats and digests the soils and out performs the pathogenic bacteria, causing the odours and dirt build up, for food source, starves the pathogens from food and kills of the pathogens through starvation. There is no immunity to starvation and therefore doesn't allow the

pathogens to build up immunity and develop into a stronger "super bug" strain of new Pathogen. The bi-product is H₂O & CO₂.

Our most advanced bio-enzyme to combat both viruses and bacteria, all-purpose cleaning product cleans surfaces better, eliminates odours quicker, and benefits hygiene systems Tried & Tested.

This product has been designed to clean immediately, but for more deeper stubborn soils it is best to allow **AcuFresh Digester** to have as much dwell time as possible before scrubbing/cleaning. Ongoing use will improve results of clean daily.

Uses: Ablutions, GP Cleaning, Mortuaries, Ambulances, Public transportation vehicles, Hotels, Cigarette smoke eradicator, Offices, Carpets, Mould removal, Homes, Bathrooms, Drains.

AcuFresh Digester is also safe to use with septic tanks. Can be sprayed on, using high pressure cleaners, mopped on or by scrubbing method.

Sanitizing and air freshener are not required to be used in conjunction with **AcuFresh Digester**.
